Iran Vows Nuclear Comeback — Sites to Rise Stronger Than Ever

IRAN: Iran said on Sunday that it would rebuild nuclear sites damaged by Israeli and US strikes "stronger than before," as mediator Oman urged Tehran and Washington to revive stalled diplomacy.

US President Donald Trump has said the strikes obliterated Iran's nuclear programme, but the full extent of the actual damage remains unknown.

Iranian President Masoud Pezeshkian, in a visit to the country's nuclear organisation, said Tehran "will build (the destroyed sites) stronger than before."

"By destroying buildings [...] we will not be set back," he said in a video posted to his official website, adding that Iranian scientists still know how the necessary nuclear knowledge.

Pezeshkian did not elaborate. In similar remarks in February before the strikes, he said Tehran would rebuild its sites if they came under attack.

Israel launched an unprecedented bombing campaign against Iran in June,

kicking off a 12-day war that saw it target nuclear and military facilities — as well as residential areas — and kill many top scientists.

Iran retaliated with ballistic missile barrages aimed at Israeli cities.

Iranian Foreign Minister Abbas Araghchi said in July, after the United States announced a halt in fighting, that the damage in Iran was "serious and severe."

Pezeshkian's comments came as Oman, Iran's traditional intermediary, urged the two countries on Saturday to resume talks.

"We want to return to the negotiations between Iran (and) the United States," Omani Foreign Minister Badr Albusaidi said at the

IISS Manama Dialogue conference in Bahrain.

Iranian government spokeswoman Fatemeh Mo-hajerani said on Sunday that Tehran "has received messages" on resuming diplomacy, without providing further details.

Oman hosted five rounds of US-Iran talks this year. Just three days before the sixth round, Israel launched its strikes against Iran's nuclear facilities.

Iran has since faced the return of UN sanctions after Britain, Germany and France triggered the "snapback" mechanism over Tehran's alleged non-compliance with the 2015 nuclear deal.—RT/Agency

PM Shehbaz Applauds PKLI After 1,000 Landmark Liver Transplants

LAHORE: Prime Minister Muhammad Shehbaz Sharif on Sunday expressed gratitude after the Pakistan Kidney and Liver Institute (PKLI) achieved the milestone of 1,000 successful liver transplants.

The premier said, "With the blessings of Allah Almighty, the sapling planted in 2017 has now grown into a towering tree, benefiting 4 million patients so far."

PM Shehbaz Sharif recalled that past conspiracies had sought to undermine PKLI, leading to the abolition of its Board of Govern-

nors and rendering the institution non-functional. After taking office as Prime Minister in 2022, Shehbaz Sharif initiated efforts to revive

less efforts in reviving the institution to serve humanity. He noted that PKLI provides free treatment to 80% of its patients, enabling underprivileged people to access world-class medical care.

Shehbaz Sharif also commended the PKLI team, particularly Dr. Saeed Akhtar, for their dedication and hard work in making the institute's operations successful and saving countless lives. Earlier, Prime Minister Muhammad Shehbaz Sharif inaugurated the fourth phase of the Prime Minister's Youth Laptop Scheme 2025,

reaffirming his government's unwavering commitment to investing in education, technology, and skill development for the country's youth. The ceremony was attended by Chairman of the Prime Minister's Youth Programme Rana Mashhood Ahmad Khan, senior government officials, students, and alumni of previous laptop schemes. A contingent of the Islamabad Capital Territory Police presented a guard of honour to recipients of the Youth Laptop Scheme on the prime minister's directives.—RT/Agency

India Launches Its Heaviest Satellite in Space Push

INDIA: India launched its heaviest ever communication satellite on Sunday, the latest step in the country's ambitious space programme.

The CMS-03 satellite blasted off from Sriharikota in the southern state of Andhra Pradesh at 5:26 pm (11:56 GMT).

"Our space sector continues to make us proud!" said Prime Minister Narendra Modi, who wants to send an Indian astronaut to the Moon by 2040.

Weighing about 4,410 kilograms (9,722 pounds), it is "the heaviest communication satellite" launched in the country, the Indian Space Research Organisation said on Thursday.

The Indian Navy said the satellite would help "secure communication links between ships, aircraft, submarines".

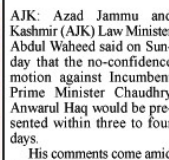

The CMS-03 satellite was sent into orbit from the towering 43.5 metre (143 foot) tall LVLM3-M5 launch vehicle.

It is an upgraded version of the rocket that launched India's unmanned craft that landed on the Moon in August 2023.

Only Russia, the United States and China have previously achieved a controlled landing on the lunar surface.

The country has flexed its spacefaring ambitions in the last decade, with its space programme growing considerably in size and momentum. Shubhanshu Shukla, a test pilot with the Indian Air Force, this year became the second Indian to travel to space and the first to reach the International Space Station — a key step towards India's own crewed mission planned for 2027.

Countdown Begins: No-Confidence Motion Against AJK PM Within Days

AJK: Azad Jammu and Kashmir (AJK) Law Minister Abdul Waheed said on Sunday that the no-confidence motion against Incumbent Prime Minister Chaudhary Anwarul Haq would be presented within three to four days.

His comments came amid ongoing political uncertainty in the autonomous region, as Pakistan Peoples Party (PPP) Chairman Bilawal Bhutto-Zardari asserted that his party had secured the required numbers to form a government in AJK.

The AJK law minister, in a statement, said the no-confidence motion had been delayed due to consultations with stakeholders.

Waheed, however, assured that the PPP possessed the numerical majority to form the government without any coalition.

The AJK law minister said that the PPP's seats had risen to 27 after members of the Pakistan Tehreek-e-Insaf (PTI) forward bloc, led by Barrister Sultan Mahmood, joined its ranks.

Waheed said that members of the PTI forward bloc

could not be subject to the floor-crossing law, noting that the party had not been registered in AJK for the last two years.

The minister asserted that the Pakistan Muslim League-Nawaz (PML-N) would join the PPP in the no-confidence motion, despite the party's announcement that it would sit on the opposition benches.

The PPP initiated the process to form its government in the autonomous region soon after President Asif Ali Zardari announced the political move. The party strengthened its position in the Legislative Assembly after 10 PTI legislators joined the PPP on October 26 in a meeting with President Zardari's sister, Faryal Talpur, at Zardari House in Islamabad.

Soon after, the PPP and the PML-N jointly filed a no-confidence motion against AJK Prime Minister Chaudhary Anwarul Haq.

In an exclusive interview with Geo News on October 29, PPP AJK Secretary-General Faisal Mumtaz Rathore confirmed that his party had the "open support of 37 members." Rathore said that the party leadership would announce the name of the new AJK premier within the next two days. However, the AJK law minister said that the decision regarding the new Leader of the House would be taken by the PPP chairman when the no-confidence motion is moved against the incumbent prime minister.—RT/Agency

New Joint Mechanism Ends Taliban's Alibi on Terror Control: Tarar

ISLAMABAD: Information Minister Attaullah Tarar on Sunday said the responsibility now lies with Kabul to act against militants using Afghan soil to launch attacks in Pakistan following the establishment of a joint monitoring and verification mechanism with the involvement of third parties.

His remarks came after Turkey's Foreign Ministry issued a joint statement saying that Islamabad and Kabul agreed to maintain the ceasefire, as well as decided to establish a monitoring and verification mechanism to ensure peace and penalise any violator.

The understanding was reached during the recent talks, held in Istanbul from October 25 to 30 under the mediation of Turkey and Qatar, concluded with both countries pledging continued cooperation for lasting peace and stability in the region.

Speaking on Geo News' programme "Naya Pakistan", Tarar praised Turkey

and Qatar for mediating the dialogue and reaffirmed that Pakistan's civil and military leadership are "on the same page" with full unity of thought and action.

He reiterated that Pakistan stands firm on its principled demands, including ending terrorism, preventing cross-border attacks, and respecting border sanctity, adding that Afghan territory must not be used for assaults against Pakistan.

Tarar lambasted the "propaganda warfare" waged by the Afghan Taliban regime, describing it as a fractured administration that "does not control the entire Afghanistan" and there-

fore cannot accuse Pakistan of creating instability.

The minister said that the onus will be on Kabul to act against Fina al-Khawariz and Fina al-Hindustan operating from their territory.

Regarding the joint framework, he said that finer operational details will be settled during the next round of discussions between senior officials from both sides in Istanbul on November 6.

"This arrangement re-moves any justification for the Taliban administration to avoid acting against militants," he emphasised, adding that they would receive punishment if they fail to act.—RT/Agency

Hangu Police Convoy Targeted — SHO and Officers Wounded in IED Blast

HANGU: Three police officers, including SHO Imranuddin, were wounded on Sunday when an IED struck a convoy of senior police officials in the Doaba area of Hangu, authorities confirmed.

"The attack targeted SP Investigation Abdul Samad, DSP Tal Mujahid, and SHO Imranuddin," said a police spokesperson, adding that the wounded personnel were immediately shifted to DHQ Hospital Hangu, where their condition was stable.

According to police, SHO Imranuddin, Sub-Inspector Jehad Ali, and District Special Branch officer Abid sustained injuries in the blast. Following the explosion, a firefight erupted between police and the attackers in the area.

This incident comes days after a previous blast in Hangu that claimed the life of SP Operations Asad Zubair along with three other police officers. Security forces have launched search operations to track down those responsible. Pakistan has been grappling with rising terror incidents, particularly in KP and Balochistan,

since the Afghan Taliban regime took power in 2021.

The government has repeatedly urged the Taliban regime to rein in terrorist groups responsible for countless attacks in Pakistan.

However, the Taliban regime largely remained indifferent to Pakistan's demands and provided refuge to multiple terrorist groups targeting security forces and civilians.

Instead of addressing Pakistan's concerns about cross-border terrorism, the Taliban regime resorted to unprovoked firing along the border on October 12.

Pakistan Armed Forces retaliated swiftly, killing over 200 Taliban fighters and affiliated militants; however, as many as 23 Pakistani soldiers were martyred during the border clashes.

Security forces also conducted strikes inside Afghanistan, including in Kabul, destroying terrorists' hideouts in the country. Hostilities between forces of the two nations ceased after Pakistan accepted the Taliban regime's request for a temporary ceasefire on October 17.—RT/Agency

Washington Moves to Reignite Military Ties With Beijing After Trump-Xi Talks

US: US Defence Secretary Pete Hegseth said that during talks with his Chinese counterpart, the two sides had agreed to reboot military-to-military links to "de-conflict and de-escalate".

Hegseth met with China's Defence Minister Dong Jun on the sidelines of a regional summit in Malaysia, a day after leaders Xi Jinping and Donald Trump held talks in South Korea.

"I just spoke to President Trump, and we agree — the relationship between the United States and China has never been better," Hegseth said in a post on X, adding that he had spoken with Dong again since their face-to-face meeting.

"The Admiral and I agree that peace, stability, and good relations are the best path for our two great and strong countries," he said, tout-ing a path of "strength, mutual respect, and positive relations."

The Pentagon chief said that we should set up military-to-military channels to de-conflict and de-escalate any problems that arise.

Such channels have existed for years but at times fallen out of use.

"We have more meetings on that coming soon," Hegseth said without elaborating.

There was no immediate comment from Beijing.

According to a Chinese defence ministry readout of their meeting in Malaysia,

Dong had told Hegseth the countries should "strengthen policy-level dialogue to enhance trust and dispel uncertainty", and build a bilateral military relationship "characterised by equality, respect, peaceful coexistence and stable positive momentum."

Last week, Trump said he had agreed to reduce tariffs on China to 47% in exchange for Beijing resuming US soybean purchases, keeping rare earths exports flowing and cracking down on the illicit trade of fentanyl.—RT/Agency

Trump Threatens US Military Strike in Nigeria Over Christian Persecution

US: US President Donald Trump said that he has asked the Defence Department to prepare for possible military action in Nigeria if the Nigerian government "continues to allow the killing of Christians."

The US government will also immediately stop all aid and assistance to Nigeria, Trump said in a post on Truth Social.

If the United States sends in military forces, it would go in "guns-a-blazing," to completely wipe out the Islamic Terrorists who are committing these horrible atrocities," Trump wrote, without providing any evidence of specifics about the treatment of Christians in Nigeria.

"I am hereby instructing our Department of War to prepare for possible action. If we attack, it will be fast, vicious, and sweet, just like the terrorist thugs attack our CHERISHED CHRISTIANS! WARNING: THE NIGERIAN GOVERNMENT BETTER MOVE FAST!" he further wrote in the post.

Abuja had no immediate reaction to Trump's threat of military action. The White House also had no immediate comment on the potential timing of any US military action.

His social media post came a day after his administration added Nigeria back to a "Countries of Particular Concern" list of nations that the US says have violated religious freedom. Other nations on the list include China, Myanmar, North Korea, Russia and Pakistan.

Before Trump posted his attack threat, Nigerian President Bola Ahmed Tinubu earlier Saturday pushed back against the claims of religious intolerance and defended his country's efforts to protect religious freedom. The characterisation of Nigeria as religiously intolerant does not reflect our national reality, nor does it take into consideration the consistent and sincere efforts of the government to safeguard freedom of religion and beliefs for all Nigerians," Tinubu said in a statement, citing "constitutional

guarantees to protect citizens of all faiths."

Nigeria's Foreign Ministry, in a separate statement, vowed to keep fighting violent extremism and said it hoped Washington would remain a close ally, saying it "will continue to defend all citizens, irrespective of race, creed, or religion. Like America, Nigeria has no option but to celebrate the diversity that is our greatest strength." The US military footprint in West Africa was significantly diminished when about 1,000 troops withdrew from Niger last year. While the US sometimes has small groups of troops in the region to take part in drills, the largest US military base on the continent is in East Africa in Djibouti, which hosts over 5,000 troops and is used for operations in the region.—RT/Agency

Turkiye Urges Swift Global Action to End Gaza Carnage

ISTANBUL: Turkish Foreign Minister Hakan Fidan is expected to call at a meeting in Istanbul on Monday for arrangements to be made as soon as possible to ensure the security and administration of Gaza by Palestinians, a foreign ministry source said on Sunday.

The foreign ministers of Qatar, Saudi Arabia, the United Arab Emirates, Jordan,

Pakistan and Indonesia are set to join the meeting on ceasefire developments and the humanitarian situation in Gaza, the Turkish foreign ministry source said. The source said Fidan was expected to "emphasise the importance of coordinated action by Muslim countries for the ceasefire to evolve into a lasting peace."

Countries taking part in

the Istanbul talks all attended a meeting with US President Donald Trump in New York in September on the sidelines of the UN General Assembly.

The US-brokered Gaza truce, which left thorny issues like the disarmament of Hamas and a timeline for Israeli withdrawal from Gaza unresolved, has been tested by periodic violence since coming into force.—RT/Agency

A Welcome Reconnection: PTI Must Reclaim Shah Mahmood Qureshi's Guiding Hand

The recent visit by senior Pakistan Tehreek-e-Insaf (PTI) leaders Salman Akram Raja and Shaukat Basra to former foreign minister Shah Mahmood Qureshi at the Pakistan Kidney and Liver Institute is more than a courtesy call — it is a symbolic and timely reconnection that may signal a thaw within the party's fractured leadership. Qureshi, who has endured immense personal and political trials since the ouster of the PTI government through a no-confidence vote, remains one of the party's most seasoned and respected figures.

Despite being sidelined by the current leadership, his enduring loyalty and commitment to democratic struggle stand as a testament to his

political maturity. The PTI, which continues to

command the support of millions, needs experienced voices like Qureshi's to steer it back into the national mainstream. The nation's political climate is volatile, and reconciliation — not radicalism — is the need of the hour.

Imran Khan and the party's core leadership must recognize that the time for isolation is over. A figure of Qureshi's stature could play a crucial role in rebuilding bridges — not only with the

country's establishment but also with political rivals. His diplomatic experience, measured tone, and credibility could be instrumental in de-escalating tensions and reviving PTI's political relevance within constitutional and democratic bounds.

The recent string of visits by both current and former PTI leaders suggests a growing realization that unity, not division, is the path forward. For PTI to reclaim its rightful place in Pakistan's democratic framework, it must embrace its veteran statesmen. Shah Mahmood Qureshi's political wisdom, if utilized with sincerity, could well become the catalyst for the party's rebirth — and for national reconciliation at large.

Pedro Puts Team Glory First After Ending His Goal Drought

Chelsea striker Joao Pedro expressed satisfaction and relief after ending his goal drought, emphasising that team success is his first priority after netting the winner against Tottenham Hotspur in Saturday's 1-0 Premier League win.

In the 34th minute, Chelsea seized the lead when Moises Caicedo stole the ball from Micky van de Ven on the edge of the Spurs penalty box.

The aggressive Ecuadorian then squared for Pedro, who made no mistake from eight meters out.

Spurs goalie Guglielmo Vicario denied Pedro Neto and Alejandro Garnacho, and the 24-year-old Brazilian had three chances to increase his goal total but was denied.

Reflecting on their victory, Pedro explained that scoring this goal was important for him because he had not found the net in a while, and the team relies on him to contribute offensively, emphasising that winning matches is

more important than individual statistics. "I needed this goal because it had been a long time I didn't score, and the team expect that from me," Joao Pedro said.

"I always want to help the team with goals and assists, but first I need to play well. If I play well, the goals are going to come. The important thing is just to win games, and I am very chill about the goals."

Pedro added that, as a forward, it is natural to feel frustrated if you do not take shots or score goals.—Agency

History Made in Mumbai: India Crush South Africa to Lift First-Ever Women's World Cup Title

India etched their name in cricketing history on Sunday, defeating South Africa by 52 runs in a thrilling final at Mumbai's DY Patil Stadium to claim their first-ever ICC Women's World Cup title. The victory marked a monumental moment for Indian women's cricket — a culmination of years of determination, grit, and passion.

Batting first, India set a formidable total of 298 runs, powered by brilliant performances from Shafali Verma (87 off 78 balls) and Deepti Sharma (58 off 58). Openers Smriti Mandhana and Shafali gave India a flying start, stitching together a 104-run stand that silenced the South African bowlers early on. Mandhana's fluent 45, laced with eight boundaries, set the tone before she fell to Chloe Tryon.

Verma continued to dominate, striking seven fours and two sixes in a classy innings that anchored India's top order. Jemimah Rodrigues provided steady support with 24, while skipper Harmanpreet Kaur (20) and Deepti Sharma took charge in the middle overs, pushing India past the 200-run mark. Deepti's composed half-century, her 18th in ODIs, came at a crucial juncture, while Richa Ghosh's quickfire 34

off 24 balls added late momentum. India ended their innings at 298 all out, setting South Africa a challenging target of 299.

In reply, South Africa began strongly as Laura Wolvaardt and Tazmin Brits built a steady 51-run opening partnership, briefly putting India on the defensive. However, a sharp run-out of Brits for 23 turned the tide. Shree Charani then struck to remove Anneke Bosch for a

duck, and from there, the Indian bowlers seized control.

Wolvaardt fought valiantly, crafting a magnificent century (101 off 98 balls) featuring 11 boundaries and a six. But regular wickets at the other end derailed South Africa's chase. Deepti Sharma delivered a masterclass in bowling, claiming a stunning five-wicket haul (5/39), while Shafali Verma chipped in with two crucial breakthroughs.

Despite a late 61-run stand between Wolvaardt and Annerie Dercksen (35), South Africa were eventually bowled out for 246 in 45.3 overs, falling 52 runs short.

As the final whistle fell, celebrations erupted across Mumbai and beyond.—Agency

The Italian, seeded second, produced a flawless performance on Centre Court, dismantling Zverev in just over an hour to book his first-ever Paris Masters final appearance.

Dar Heads to Istanbul for Urgent Arab-Islamic Ceasefire Talks

ISLAMABAD: Deputy Prime Minister and Foreign Minister Senator Ishaq Dar will undertake a one-day visit to Istanbul tomorrow to attend the Coordination Meeting of Arab-Islamic Foreign Ministers, the Foreign Office said on Sunday.

The meeting, hosted by Turkish Foreign Minister Hakan Fidan, will discuss the implementation of the Gaza Peace Agreement and regional efforts to consolidate the ceasefire, read the statement.

According to the statement, Pakistan — which has remained engaged with the Arab-Islamic peace initiative

that led to the signing of the Gaza Peace Agreement in Sharm El-Sheikh — will underscore the need for the full implementation of the truce and Israel's complete withdrawal from the Occupied Palestinian Territory, especially Gaza.

"Pakistan will also call for the provision of unfettered humanitarian assistance to Palestinians and the reconstruction of Gaza," the FO said.

It added that Islamabad

would reiterate the need for collective efforts to achieve an independent, viable, and contiguous State of Palestine, with Al-Quds Al-Sharif as its capital, based on pre-1967 borders in line with relevant UN resolutions and the Arab Peace Initiative.

"Pakistan has been, and will continue to be, committed to efforts to restore peace, justice, and dignity to the Palestinian people, as well as to ensure the realisation of their right to self-determination," the statement concluded. Hamas and Israel signed an agreement on October 9 to cease fire and free Israeli captives in exchange

for Palestinian prisoners, in the first phase of United States President Donald Trump's initiative to end the conflict in Gaza.

The deal includes the release of captives and prisoners as well as a surge of aid into Gaza after more than two years of genocide, after Tel Aviv started bombing the Palestinian enclave following Hamas's October 2023 attack on Israel. Later on Oct 13, mediators Egypt, Qatar and Turkey signed with US President Donald Trump a declaration as the guarantors of a Gaza ceasefire deal aimed at ending two years of war. —RT/Agency

The prime minister expressed the government's resolve to take all measures to ensure

Israel Presses Lebanon to Disarm Hezbollah Under Ceasefire Pact

JERUSALEM: Israeli Prime Minister Benjamin Netanyahu warned on Sunday that Hezbollah was seeking to rearm and that Israel would exercise its right to self-defence under last year's ceasefire accord if Lebanon failed to disarm the group.

At the start of a cabinet meeting Netanyahu said Israel would "act as necessary", if Lebanon does not take steps to prevent its territory from becoming a renewed front.

The US brokered a truce in November 2024 between Lebanon and Israel after more than a year of conflict sparked by the war in Gaza, but Israeli strikes across the border have continued sporadically.

The Israeli military said in a statement on Sunday that it had killed four Hezbollah members.

Israeli Defence Minister Israel Katz also said the

Lebanese government must fulfill its commitment to disarm Hezbollah and remove the group from southern Lebanon.

Katz said maximum enforcement efforts would continue and intensify to protect Israeli residents in the north.

Under the ceasefire accord, Lebanon agreed that only state security forces should bear arms, which means Hezbollah must be fully disarmed.

Lebanese army sources told Reuters they had blown up so many Hezbollah arms caches that they had run out

of explosives and they expect to complete their sweep of the country's south by the end of the year.

Once the dominant political party in Lebanon, Hezbollah was severely weakened by the war with Israel, which killed thousands of fighters and longtime leader Hassan Nasrallah.

Hezbollah has publicly committed to the ceasefire and has not opposed the seizures of unmanned weapons caches in the south.

It has not fired on Israel since the November truce. —RT/Agency

The defence minister has said the unrepresentative Afghan Taliban regime is facing internal divisions.

Taking to X, the defence minister has expressed a strong reaction to the misleading and malicious statement of the Afghan Taliban spokesperson, adding Pakistani nation and political and military leadership are in complete harmony, and there is a national consensus on Pakistan's security policies and strategy regarding Afghanistan.

He said that the people of Pakistan, especially Khyber Pakhtunkhwa, are well aware of the ongoing terrorism of Indian proxies under the patronage of the Afghan Taliban.

There is no ambiguity. The Taliban are continuously oppressing women, children and minorities, while the rights of expression, education and representation are being denied to the general public, Khawaja Asif said.

"Despite the passage of four years, the Afghan Taliban have not been able to fulfill the promises they made to the international community. They are merely using rhetoric, making narrative and following the agenda of external elements to hide their internal divisions and governance failures. The Afghan Taliban are acting as a proxy for external elements, particularly India. —RT/Agency

October Offensive: Security Forces Neutralized 350 Militants, Says Report

ISLAMABAD: Successful kinetic operations by Pakistan security forces made October the deadliest month for militants with over 350 militants killed, according to a report by the Pakistan Institute for Conflict and Security Studies (PICSS).

According to a recent report by the Islamabad-based security think tank PICSS, the month of October remained the lethal for militants across the country, with intensified operations by the security forces.

Estimates show that 355 militants were killed across the country, marking the highest losses in a decade from the militants.

During the month, 69 attacks were recorded, a 52 percent decline compared to August, according to the report. Amid clearance operations, 92 security personnel and 48 civilians also lost

their lives. The security forces also apprehended 22 suspected militants, the report stated. The report database recorded a 29 percent rise in militant attacks—from 69 in September to 89 in October—though overall human losses in these attacks declined by 19 percent.

In the southwestern province of Balochistan, 23 militant attacks were recorded, while casualties dropped sharply from 79 to 27, the report added.

During counter-terrorism operations, 67 militants were killed, marking notable improvement in the province's security situation. This represented a 92 percent decline in civilian deaths and a 52 percent drop in security personnel fatalities, the report added. In the former tribal districts, now merged into Khyber Pakhtunkhwa under the 25th Amendment of the constitution, and mainland KP, 55 militants were killed in kinetic operations led by the security forces. —RT/Agency

Bangladesh Unrest Turns Deadly — Nearly 300 Killed Since Hasina's Ouster

BANGLADESH: Nearly 300 people have been killed in political violence in Bangladesh in the year since student-led protests toppled autocratic former leader Sheikh Hasina, the country's main human rights group said on Sunday.

A report by Odhikar, a Dhaka-based rights organisation, said at least 281 people had been killed in violence involving political parties from August 2024, when Hasina's rule ended and she fled to India, to September 2025.

On top of those, there were another 40 victims of extrajudicial killings who had been suspected of crimes, while another 153 were lynched, the quarterly report released last week said.

Odhikar director ASM Nasiruddin Elan said adherence to human rights had improved since the fall of Hasina's government but law enforcement agencies were still not being held account-

able.

"Yes, we don't see the frequent extrajudicial killings or enforced disappearances that we witnessed during the Hasina era, but deaths in custody, bribery, and harassment of victims are still ongoing," Elan told AFP.

He said that "innocent people fall prey to atrocities" for their alleged involvement with the Awami League, Hasina's political party that is now banned.

Hasina's 15-year rule saw widespread human rights abuses, including the mass detention and extrajudicial killing of her political opponents.

Odhikar also said mob attacks had been relatively frequent during the period, mainly because of inefficient policing.

"Police have been used to achieve party interests and were given impunity, which eventually led them to kill and torture activists affiliated with the opposition," the report said.

It said "the police largely became dysfunctional and lost their morale", after Hasina fell. Bangladesh's interim government nor any of the political parties have responded yet to Odhikar's report. —RT/Agency

Mexico Inferno Claims 23 Lives, Including Children

MEXICO CITY: A festive holiday weekend turned tragic for families in northwestern Mexico when a deadly blaze engulfed a discount store in the city centre of Hermosillo, killing at least 23 people and injuring a dozen.

Mexico is celebrating the Day of the Dead this weekend with colourful festivities in which families honour and remember deceased loved ones. "I have ordered a thorough and transparent investigation to clarify the causes of the accident," Alfonso Durazo, governor of the state of Sonora, home to the city, said in a video on social media, adding that children were among the victims.

Most of the deaths appeared to have been from inhalation of toxic

gases, said Gustavo Salas, the state's attorney general, citing its forensic medical service.

"My heartfelt condolences to the families and loved ones of those who lost their lives," President Claudia Sheinbaum said in a post on X, adding that she had directed support teams to be sent to help victims' families and the injured.

Sonora's Red Cross said its 40 staff and 10

ambulances joined in the effort, making six trips to the hospital.

The cause of the fire, now doused, was still unclear, though some media blamed an electrical failure. City officials said the store, part of the popular discount chain Waldo's, was not the target of an attack.

The chief of the city's firefighters said it was still being investigated whether there was an explosion. RT/Agency
